Qualitative feedback

Has the training program covered what you expected? If partly or no, why?

What topic/issue has been the most important for you?

- This workshop sat with my beliefs about needing to work with men
- The tools to help people understand themselves
- Child centre practice, focusing on how a child would feel about the violence
- Value therapy, engagement strategies
- Examples of ways to work with men
- Core values
- Control wheel and values
- The doing emphasis rather than the feeling, and being honest and asking men why they did that. Focusing on the child.

What topic/ issue has been the least important for you?

- None
- n/a x2
- safety planning (I already do this at work)
- I found the whole session awesome, could not score one lower than the other

What impact will this training have on your work?

- Lots of tools to use. I feel comfortable to talk to staff regarding these issues
- It will provide practical tools and knowledge to take away and hopefully help people heal, by way of passing it on
- Relook at where we can support fathers
- Unpack cases involving FU in a new way, approach men who use FU in a new way
- More father inclusive with view of having positive outcomes for children and their dads
- Really great, rich and deep in ideas- very credible
- It was a fantastic workshop, with many companies to be added into my framework of practice
- I will choose my words more wisely and use silence to help them process things
